Energy Efficient Heating, Cooling and Ventilation Solutions

Enright Engineering Services is a leading provider of energy efficient heating, cooling and ventilation solutions to industrial and commercial customers in the north east.

Our expertise and experience has enabled our customers to benefit from:

Lower energy bills – we can design a solution that produces year on year cost savings on your heating and energy bills

Reduced Environmental Impact – lower energy consumption is also a much more environmentally-friendly solution

Designed Solutions – our engineering expertise is used to design the most cost-efficient solution for your needs

Excellence in Customer Care – we pride ourselves on our honesty and the positive feedback we receive from clients

Peace of Mind – we have over 40 years experience in providing energy efficient solutions and are Corgi Registered, members of the Heating and Ventilation Contractors Association, OFTEC and the Environmental Industries Federation.

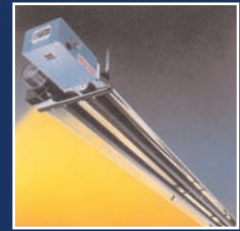

We can design, specify, supply and install:

- Heating
- Ventilation
- Air Conditioning
- Evaporative Cooling
- Pipework
- Hot & Cold Water Services
- Ductwork
- Gas and Oil Services
- Control Systems
- Energy Management
- Service and Maintenance
- Chemical Powerflushing

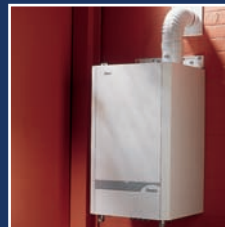

Beat rising energy costs contact Enright Engineering Services on: 0191 482 0002
